

Intralogistic Solutions

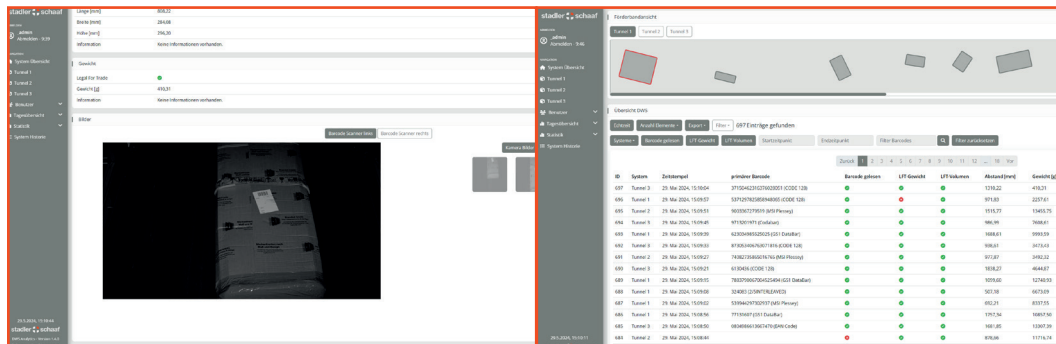

Stadler + Schaaf stands for performance and quality in engineering, automation, assembly and IT services. We have been developing forward-looking solutions for several decades in various sectors.

As a system integrator specialising in scanning and image processing, Stadler + Schaaf offers sustainable solutions for all aspects of intralogistics. In addition to our robust design, our products are characterised by their high reading speed. Up to 6 sides scan systems with weight and volume measurement enable a smooth and efficient product flow. Our solutions are adaptable to any environment and industry, with tailored interfaces for the integration into almost any customer system.

<p>Airports</p>  <ul style="list-style-type: none"> • Scan tunnels up to 6 sides 			<p>Food & Beverage Industry</p> <ul style="list-style-type: none"> • Damage detection • Tote inspection • BBE check • IP69K certificate
	<p>Automotive Industry</p> <ul style="list-style-type: none"> • Automotive parts inspection and code reading • DOT reading systems 	<p>Solutions for AGVs, Monorail...</p>  <ul style="list-style-type: none"> • Scanning of mobile systems 	
<p>Logistic Centers</p>  <ul style="list-style-type: none"> • DWS systems up to 6 sides • Crossbelt scans • NoRead stations • Goods-in and goods-out stations 			<p>Truck Loading</p> <ul style="list-style-type: none"> • Automatic scanning of pallets for loading / unloading control

Visualisation

A customised visualisation environment is provided, tailored to align with our clients' applications and their specific requirements.

DWS Analytics

- Data (code, volume and weight)
- Images
- Package position
- Extended statistics

AI Solutions

Many different AI-based solutions can be developed, giving customers insights about their products that barcodes cannot provide or autonomously controlling processes without the need of operator supervision.

OCR

- OCR on airline tags
- OCR on vehicle tyres for DOT code recognition

Barcode Reading

- Detection of labels, boxes, dangerous packages in logistic centres

Expiry Date

- BBD detection and OCR in the food industry

We offer a holistic customised concept, from planning through realisation and implementation to service and see ourselves as a long-term and reliable partner for our customers.

Transparency and mutual trust are among our key principles.
